#### **BOARD OF DIRECTORS' REPORT**

Dear Shareholders,

On behalf of the Board of Directors of Al Suwadi Power Company SAOG (the "Company"), I have the pleasure to present the Directors' Report of the Company for the quarter ended 31 March 2019.

#### **Operational Results**

The Plant ran with a reliability of 97.6% and delivered 854 GWh to the Omani grid. The actual plant load for the period was 53.7%. The thermal efficiency, which determines the efficiency in the economical utilisation of the gas, was 99.8%. Again, this performance was achieved with no Lost Time Accidents to any of our staff, thereby clocking 2,828 Lost Time Accident free days since inception, and is reflective of our continued internal focus on Health, Safety, Environment and Quality Management.

#### **Financial Results**

	3-month 2019 RO'000 Unaudited	3-month 2018 RO'000 Unaudited	Percentage change
Revenues	11,957	12,127	-1.4%
Direct Costs	-11,325	-11,445	1.0%
Gross Profit	632	682	-7.3%
Loss before tax	-2,047	-2,202	7.0%
Tax-expense	-439	-419	-4.6%
Net loss	-2,486	-2,621	5.2%

The marginal decline in revenue was primarily due to the lower plant reliability due to plant outages. All outages were thoroughly reviewed and analysed by our O&M contractor. Immediate remedial measures were undertaken to ensure that the loss of revenue from the plant outage was limited. Preventive measures have been considered to ensure that these issues do not recur. However, as compared to Q1 2018, with better operational cost control and steady reduction in finance cost, net loss for 3 months of 2019 was lower by 5% lower as compared to the similar period of 2018.

The Income Tax Rules, further clarifying the provisions of tax law changes, have now been promulgated. OPWP has been invoiced for the Withholding Tax paid by the Company pursuant to the 'Change of Law' protection granted to the Company pursuant to the PPA. The financial impact on the Company arising from tax law changes has been addressed.

The share price was 87 Baizas at the end of March 2019.

## **Corporate Social Responsibility**

The solar power facility for the school at Barka, run by Ministry of Education, was commissioned during the period. Further, solar power facility for a school run by Ministry of Education at Liwa, in association with few power companies in Oman, is also being implemented as per the company's CSR budget for 2019. Other areas of community support in Barka region are also being pursued with local governmental authorities, as per the guidelines of the Company's CSR Policy.

## **Medium term Outlook**

During rest of 2019, routine maintenance of all major operational equipment is planned as per the recommendation of the manufacturers. All reasonable measures are being taken by the management to maintain high reliability levels in 2019. Consequently, we expect a steady progress in the Company's financial performance.

## **Acknowledgement**

I would like to extend my personal thanks to all personnel associated with the operation of the power plant and the staff of the Company for their hard work and dedication, as well as to those others such as our contractors, whose expertise has assisted us in achieving these results.

Finally, on behalf of the Board of Directors, I would like to extend our deep appreciation and gratitude to His Majesty Sultan Qaboos Bin Said and His Government for their continued support and encouragement to the private sector by creating an environment that allows us to participate effectively in the growth of the Sultanate's economy and to dedicate our achievements to the building of a strong nation.

The management believes that the hedging deficit of RO 5.05 million as at 31 March 2019 (RO 3.29 million as at 31 December 2018) represents the loss which the Company would incur, if it opts to terminate its swap agreements on this date.
